

Robert Weda

Nairobi, Kenya | 0742756074 | robertweda993@gmail.com

Summary

Experienced web developer with proven expertise in creating visually appealing and user-friendly websites utilizing HTML, CSS, and JavaScript. Passionate about web development and Artificial Intelligence, constantly seeking opportunities to expand knowledge and skills. Seeking collaborative partnerships with like-minded professionals in the industry. Contact me or visit my portfolio website.

Experience

Freelance Web Designer

Jan 2024 - Present

Upwork

As a freelance front-end developer on Upwork, I create visually appealing and user-friendly interfaces for websites and web applications. I collaborate with clients to understand their needs and use HTML, CSS, and JavaScript to bring these designs to life. I stay updated with the latest web development trends to deliver high-quality work.

Intern Frontend developer

Jan 2023 - Sep 2023

Border Hub

As a front-end developer at Border Hub, I took charge of collaborating with the design team to create user-friendly interfaces and write clean, efficient code using HTML, CSS, and JavaScript. Additionally, I led the efforts to work closely with the backend team to ensure seamless integration and remained at the forefront of industry trends to drive continuous improvement in our processes.
